Comes to St. Louis People.

Backache is such a deceptive thing. It comes and goes-Keeps you guessing all the time. Learn the cause-Then cure it.

Nine times out of ten it comes from the kidneys. It's the kidneys' cry for help-The warning of more serious trouble to follow.

DOAN'S KIDNEY PILLS

cure backache-and every form of kidney trouble, down to the very verge of Bright's disease-Nothing will cure that-How do we know-St. Louis proof-Lots of it. Proof that can't be gainsaid. Here is one St. Louis case.

Mr. M. Fredo, of 3117 N. 14th Street, 2d Ward, says: "If I ever have another attack of backache, which hurt me when I walked any distance, stooped or brought any strain on the muscles of the back, which compelled me to give up my situation as night watchman at Peters' Shoe Factory on 12th street, and which often was so painful that I could not climb the stairs, I will immediately walk to 'Wolff-Wilson's' for Dozn's Kidney Pills. That treatment, a short time ago, so quickly and so thoroughly effected a cure that I cannot speak strongly enough about the opinion I formed touching the pills."

PARTLY-COOKED CEREALS DANGEROUS.

parily-cooked cereals bangerous.

In the common-sense crusade in favor of cerent foots, many people lose sight of the fact that they cannot escape all the fiesh-sating ills if they are careless about the ser of starch foods. Partly cooked cereals are dangerous. They enter the stomach in a condition until for assimilation and yield small neurishment. A properly dextrinized browned) food furnishes energy and builds up the system. It finds an anthusiastic reception in the stomach, which rejoices in the lightening of its load. Toasted Wheat Flakes is such a food. It is sweetened with Mait Honey, Nature's health sweet, and is delicious and satisfying. Imitations may deceive you, but not your stomach. The genuine Toasted Wheat Flakes packages bear a picture of the Battle Creek Sanitarium.

GAGE MAY BE PRESIDENT OF UNITED STATES TRUST CO.

John A. Stewart Resigns and Recom mends Former Secretary of the Treasury.

New York, Feb. 18 .- At a special meeting to-day of the trustees of the United States Trust Company, John A. Stewart tendered his resignation of the office of president and recommended that Lyman J. Gage. former Secretary of the Treasury, be chosen his successor. It was understood that Mr. Gage would accept. Mr. Stewart wrote a letter to the trustees, in which he said:

"Owing to my advanced years, I have for some time been seriously contemplating the importance of installing a suitable successor to myself in the presidency of the company, but until very recently I have been unable to suggest any one for the position. Within the last few weeks, however, it has occurred to me that possibly the Honorable Lyman J. Gage, the late Secretary of the Treasury, might be available for the position, and it affords me great pleasure to tion, and it affords me great pleasure to state that, after correspondence and a per-sonal conference with him, he has been prevailed upon to signify his willingor as to accept the presidency should it meet with the concurrence of the board. I am con-vinced that Mr. Gage is admirably fitted for the place and believe that under his suldance the prosperity of the company will continue in increasing measure."

Manufacturers' Association Seeks Warehouse for Indian Supplies.

SPECIAL. Washington, Feb. 18.-An effort is being made by the St. Louis Manufacturers' Association to secure for St. Louis the ware house for Indian supplies, which is now located in New York. At the suggestion of L. D. Kingsland, president, and Tom L. Canron, secretary of the association, the

delegation in Washington. If the effort to make the change is suc cessful it will be of vast importance to the commercial interests of St. Louis, as practically all the supplies for the Indians which are bought in New York, will be purchased in St. Louis, and the aggregate would be an annual expenditure of several

For many years the Government has paid tribute to the present system, and stored the supplies of the Indians in a city remote territory where the supplies are 1. The advocates of the transfer claim in their appeal to the department that the cost of freight and making of bids under the present system is excessive, and this is largely due to the fact that the prices charged for such goods must be based in such a way as to include the freight to and from New York to the point

St. Louis is adjacent to the Indian reservations, and all of them in the Northwest, South and Southwest are near enough to St. Louis to make that city a central distributing point.

YACHT METEOR IS ALL READY.

New York Has Plans for Recep tion of the Royal Visitor Completed Except for Several Minor Details.

REPUBLIC SPECIAL. New York, Feb. 18,-While Rear Admiral Count von Baudissin is enjoying himself with relatives in Philadelphia, Captain you Holleben, who is in charge of the imperial yacht Hohenzollern, is rushing things to get his vessel in proper trim before Prince Henry arrives

It is known that the Krompring Withelm Is racing across the Atlantic on this trip, and there is a prospect, should the ocean be comparatively calm, that the westward record may be lowered.

Captain von Holleben wishes the Hohenzollern to be in readiness to receive the Kalser's brother by Friday in the possible event of the North German Lloyd liner on which Prince Henry is a passenger. getting here on that day.

As the contractors had not reckoned on a blizzard to delay the work of redecerating the visiting yacht, all was bustle and excitement on board the Hobenzollern this

The members of the crew were put t work clearing the ship of snow and removing the canvas coverings which had protected the line furnishings of the Hobenzollern on the ocean voyage. At the same time the painters, gilders and varnishers were making good progress on the decks and in the cabins of the royal yacht. The finishing cont of white to the hull of the Hohenzollern will wind up the contract. Arrangements for Yacht Launching.

Wallace Downey of the shipbuilding firm of Townsend & Downey will go to Wash-ington to-morrow to make the final ar-rangements for the launching of Meteor III. Mr. Downey said to-day that the snow-storm, while it had not interfered with the finishing of the yacht, which is being constructed under a wooden shed, had, in a measure, retarded the decoration of the ex-terior of the building where the Zeo distin-guished guests will be entertained by the firm after the launching of the craft. He said also that he hoped the snow

would remain on the ground until after the Meteor takes her maiden dip in the waters of the Kill-von-Kull, because the white mantle would hide the unsightly things which make a shipyard not a very altractive place for visitors

Preparations for the reception of Prince
Henry are going on without interruption in

this city. The plans are practically all made, but many details are yet to be com-pleted before the gang plank is run up to the deck of the Kronprinz Wilhelm and Germany's royal visitor sets foot for the first time on American roll. The menu for the New York Stants-Zet-tung dinner to be tendered to the American

press in honor of Prince Henry, is printed on white satin ribbon, headed with a photo-gravure in colors of the Prince in full-dress uniform with medals and honors. The dinner is to be given on the evening of February 26 at the Waldorf-Astoria.

PRACTICAL SUGGESTIONS FOR TABLE AND KITCHEN.

Coffee Cake Dough.

Quite a number of cakes can be made from the plain kitchen dough, such as kaffee kuchen, roly-poly, mohntarts, etc. To make this dough take a compressed yeast cake and dissolve it in half a cup of salt and a tablespoonful of sugar. Set it in a warm place to rise. Sift two pounds of flour and warm it. Scald a quart of talk and when hot add three-fourths of a cup of sugar, half a pound of fresh butter, a little grated lemon peel and a teaspoonful of clamamon; mix all well together, stirring until the sugar is dissolved. Make a hollow in the center of the flour; put in the yeast and then stir in gradually the warm mike mixture. Then add three-grays leaden light, when well mixed work the cough well with your hand, but do not knead it. Then beat it with the hollow of your band until it is bilistered and makes a cracking noise. He careful not to make the dough too stiff, using just enough flour to prevent it from careful not to make the dough too stiff, using just enough flour to prevent it from sticking to hands or bread board. Work the dough until it becomes smooth and loses all "stickiness," then place in a warm bowl, cover closely and set in a moderately warm place until next morning, if you make up the dough at night.

In the morning it is ready to make up into kaffee kuchen, roly-poly, etc.

Knffce Kuchen.

Take range that are long and rather.

Take pans that are long and rather broad and butter them thoroughly. Roll out enough of the plain dough to ever them; set to rise for half an hour, then brush well with melted butter; sirew sugar, cinnamon and chopped almonds over the top, or rub some butter, flour, sugar and clinamon together until it crumbles like the pleces of almonds and strew these on top of the cakes.

Roly Poly. Roly Poly.

Roll out a thin layer of the plain dough and cover the bottom of a long baking tim. Brush the top well with melted butter and let rise for half an hour; then sprinkle well with currants and clunamon. Cut into strips about an inch wide and four inches long; roll out and put into a well-buttered baking th, leaving enough space between each strip to keep from touching, and brush them with butter. Bake until nicely browned.

Dissolve a compressed yeast cake in a cupful of lukewarm milk, add a pinch of salt and a tablespoonful of sugar. Put the milk and yeast in the center; mix to a smooth batter and set in a warm place to rise. Beat half a cupful of sugar to a cream; add four whole ergs and yolks of three ergs, two cupfuls of flour alternately. First add a whole ergs and yolks of three ergs, two cupfuls of flour alternately. First add a whole erg, then a few tablespoonfuls of flour, then another erg, stirring each erg in until it disppears in the batter before adding more flour. When all the ergs and flour are in add a tablespoonful of fine by chopped citron; two of seeded, chopped almonds, and two or three tablespoonfuls of chopped almonds. Flour the fruit so it will not sink. Let it rise for three hours or until it is very light, and thin; bake in a moderate oven for an hour. Do not let it get too brown.

An argument for the establishment of An argument for the establishment of a Federal Court in East St. Louis was made yesterday morning when Attorney Frank C. Smith filed a still for \$20,090 damages against the Baitlimore and Ohio Southwestern Railroad and Stades Hussey, an employe of the railroad company, for Charles E. Hubbel, who was the victim of an accident two years ago, in which he lost his hand. The suit was directed against the railroad company and the employe so that the suit could be prosecuted in the East St. Louis City Court, instead of being removed to the Federal Court at Springfield, which would entail the loss of a good deal of time and the extenditure of not a little money in railroad fare, hotel bills and incidentals. East St. Louis and Belleville attorneys are strongly in favor of the establishment of a Federal court in East St. Louis, as proposed by Attorney Charles W. Thomas of Belleville, who has made several trips to Washington in the interest of a bill establishing this court. A bill has been introduced into the House by Congressman Kern of Belleville and one has been introduced into the Senate by Senator Cullom for the establishment of this court in East St. Louis. FEAR OF FAILURE

often deters a suffering man from seeking the professional services of the experienced Specialist. Because he has been so unfortunate as to have tried this or that physician, who may have falled to cure his ailment, he naturally becomes skeptical and continues to suffer, even when aid and a positive cure are within his easy reach. Simply because people are often killed in railroad wrecks does not in all any way deter others from traveling by rail. No more should the unfortunate sufferer go on suffering. He should not give up, but find

THE ONE who can and will cure him. Dr. Cook can do this, as has been proven by his twenty-three years' experience as a SPECIALIST in the diseases of men only. What he has done for thousands of others he can and will do for you. A confidential talk with Dr. Cook will cost you nothing and may be the means of restoring you to perfect health. If you can be cured he will tell you so, and if you cannot he will be perfectly frank with you, as he never undertakes any case for treatment unless he can cure the patient 10 STAY CURED.

The pools of stagnant blood are driven from the dilated veins, and all sortees and swelling quickly subside. Ev-ery indication of variescele soon vanishes. and the pleasure of perfect health and re-stored manhood.

STRICTURE.

My cure dissolves the stricture complete-ly and removes every obstruction from the passage, allars all inflammation, stops ev-ery discharge, reduces the prostate gland when entarged, cleanages and heals the blad-der and keineys when irritated or congested, invigurates the organs and restores health and soundness, in every part of the body affected by the disease.

CONTAGIOUS BLOOD POISON

My special form of treatment for this disease is practically the result of my life work, and is indersed by the best physicians of this and foreign countries. It contains no dangerous drugs or influrious medicines of any kind. It goes to the very bottom of the disease and forces out every particle of impurity. Soon every sign and symptom disappear completely and forever. The blood, the tissue, the flesh, the bones and the whole system are cleansed, purtiled and My special form of treatment for this dis-

restored to perfect health, and the patient prepared anew for the duties and pleasures of life.

NERVO-SEXUAL DEBILITY.

My cure for weak men stops every drain of vigor and builds up the muscular and nervous system, purifies and enriches the blood, cleanses and heals the bladder and kidneys, invigorates the liver, revives the spirits, brightens the intellect, and above, and beyond all, restores the wasted power of manhood.

REFLEX DISEASES.

Many ailments are reflex, originating from other diseases. For instance, reakness sometimes comes from Varicocele or Stricture, innumerable blood and bone diseases often result from contagious tains in the system, and physical and mental decline frequently follow lost manhood. In treating diseases of any kind I always remove the effect as well as the cause.
